Warning to website and social media sellers following reports of banking fraud

Leicestershire Police is urging people using selling websites and social media to sell items to remain vigilant following an increase in reports of banking fraud. Between July and October, a number of reports have been received of buyers using a fake banking app, which makes it look like money has been transferred when it has not.

The incidents have involved the victims being asked to put their bank details into a fake app on a buyer's phone when meeting to hand over the item. The app produces a screen which states the money has been successfully transferred. Victims have reported that when they check their account, no money has been received.

Thirteen reports have been received from victims living in Leicestershire – as well as the West Midlands, Warwickshire, Nottinghamshire, Derbyshire, Buckinghamshire and South Wales.
